

GTN 650 (also GTN 635 and GTN 625):

Database	Function	Storage	Update cycle	Supplier	Notes
Aviation	Airport, NAVAID, waypoint and airspace	Internal	28 Days	Fly.garmin.com	Remains available
SafeTaxi	Airport diagrams	Internal	56 days	Fly.garmin.com	Remains available
Terrain	Topographic map, Terrain /TAWS	SD Card	As required	Fly.garmin.com	Remains available Note: TAWS-B option unavailable without current terrain and obstacle database
Obstacle	Obstacles over 200 Ft.	Internal	56 days	Fly.garmin.com	Remains available Note: TAWS-B option unavailable without current terrain and obstacle database
Basemap	Boundary and roads	Internal	As required	Fly.garmin.com	Remains available

SD card is part of TSO, as such you require Garmin supplied supplemental datacards to conform with the TSO.
Using non TSO-ed cards would render the product certification invalid, and as such this is illegal.
